User Manual

There are two ways to run the project:

1st way:

- Install Netbeans IDE 11.0 or above
- Open the MomentO folder and go to GUI.
- Open 'target' folder and load GUI-1.0-SNAPSHOT.jar file in netbeans.
- Run the project

Or

- After installing netbeans open it and go to files menu then click on open project and select GUI-1.0.SNAPSHOT.jar.
